

WBS DICTIONARY TEMPLATE

This template of a work breakdown structure (WBS) dictionary enables you to identify the complete project requirements and their details for each work package. It is an extremely important document because it enables those who are responsible for producing a work package to understand the exact scope of this work.

| LEVEL/ WBS ID | WBS DESCRIPTION | OWNER / ORGANIZATION | SCHEDULE MILESTONE (S) | RESOURCES NEEDED | \$ COST ESTIMATE | QUALITY REQUIREMENTS | ACCEPTANCE CRITERIA |
|------------------|-----------------|-------------------------|---------------------------|------------------|---------------------|-------------------------|------------------------|
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
| | | | | | | | |
